Reasons for Allowance

Claims 1-47 are allowed.

This is examiner's statement of reasons for allowance.

The instant invention recites a light-collecting device, comprising:

a reflector, shaped like a longish cylinder, a surface of which is a light-reflecting surface finished as a mirror surface; and a photo-detector to detect light residing inside said reflector;

wherein said reflector comprises a light-incoming aperture to guide light inside said reflector, and a perpendicular line at said light-incoming aperture is shifted from a center line of a cross-section perpendicular to a longitudinal direction of said reflector.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
